Share Your Organization Page

Share Your Organization Profile Page

You can easily copy and share a link that takes your students to your organization page. The link is dynamic and will automatically direct students to the right place.

A great way to get started with Orbi is by sharing links in:

- Instagram posts or bio
- WhatsApp groups
- Other student channels

This makes it easy for students to discover your organization early on.

Brand Assets

You can also use our brand assets to announce that your organization is now on Orbi and guide members to the platform.

For example, share an Instagram post or story:
 "For future events, we'll be using Orbi. Download the app or visit orbi.io to explore what's coming up, don't miss out!"
 And then share the link to your organisation page on the same post/story.

Share Your Events

Share Your Event
Easily share your event with students by copying your event link directly from the event page.

Choose between:
Web link - best for external users or first-time visitors
App link - best for students already using Orbi and community effect

These links are dynamic and will guide users to the right place automatically.

- A great way to share:
- Instagram (bio or posts)
 - WhatsApp groups / communities
 - Student communities

Web vs App Links
Understand when to use each link.

- Web link
- Opens in the browser
 - Ideal for new users
 - Easy to access without downloading anything

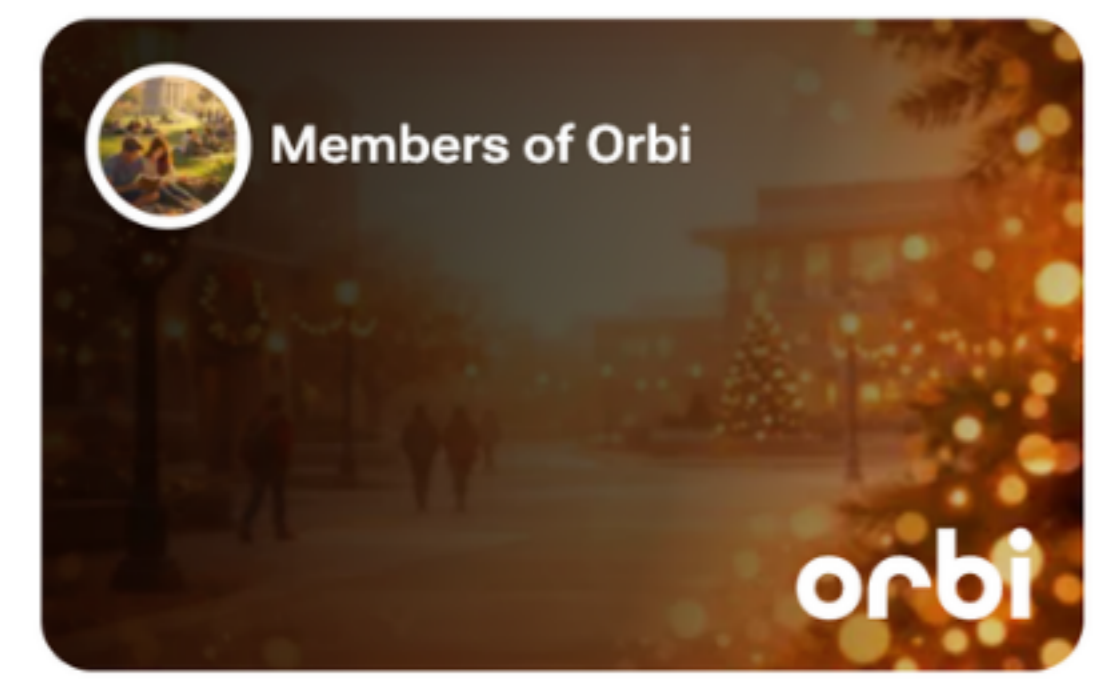

- App link
- Opens directly in the Orbi app
 - Gives the full experience (notifications, DM's)
 - Best for existing users

Tip: Share both to maximize reach.

Share Your Membership

Share Your Membership

Easily share your membership with students by copying your membership link directly from the membership page.

Invite students to join your membership.

- Copy your membership link from the overview page
- Share it across your channels
- Students can sign-up and join directly through the link

This is useful for:

- Private events connected to the membership
- Member-only access
- Building a long-term community
- Easy collecting membership fees

OBS! For hidden membership there is no invitation link as a safeguard so the membership isn't spread / leaked to others.
