## Orbi on Web

To use Orbi you don't need to download the app. You can still search, view and sign up to events. .

You don't need to download the app to use Orbi. On the web, you can easily browse, explore, and sign up for events.

Students can:

1. Discover public events across campuses
2. Explore student discounts from both Orbi and student organizations
3. Learn more about different student organizations
4. View event details and sign up or purchase tickets in one simple flow

3.

4.

For the full experience, including notifications and direct communication, we recommend using the Orbi app.

## Orbi as an App

By using the Orbi app, you and your students get the full experience, including notifications, communication, and seamless access to everything in one place. The app is divided into four main sections:

### 1. Campus

This is the hub for everything related to student life on campus.

Students can:

- Browse the event calendar
- Join and manage memberships
- Access and store their tickets

### 2. Books

A peer-to-peer marketplace for student literature.

- Scan a book's barcode to add it to your library
- Let other students browse your listings
- Connect directly with buyers or sellers

### 3. Career

Connect students with career opportunities.

- Companies create profiles for employer branding
- Post opportunities such as internships, thesis projects, part-time jobs, and graduate roles, etc.

Student organizations can also use this infrastructure:

- Promote partner or sponsor companies
- Increase visibility for collaborations on campus

### 4. Discounts

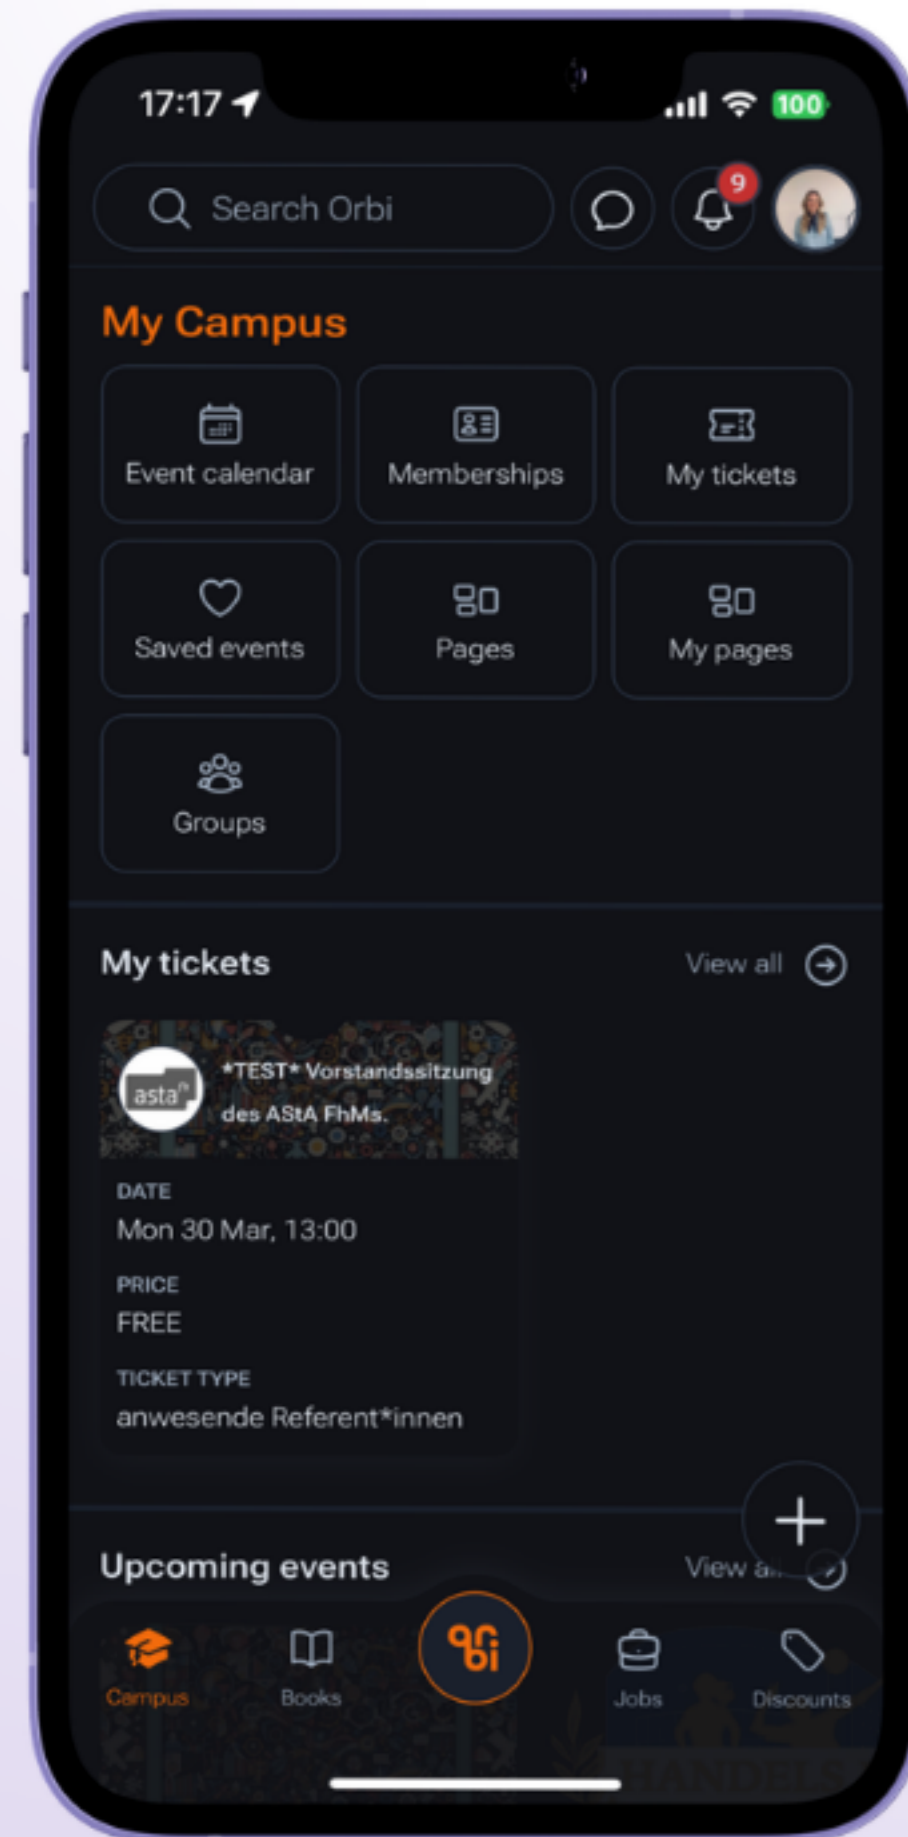

Access exclusive student offers.

- Discover discounts from global brands on Orbi
- Explore local deals from student organizations and partners

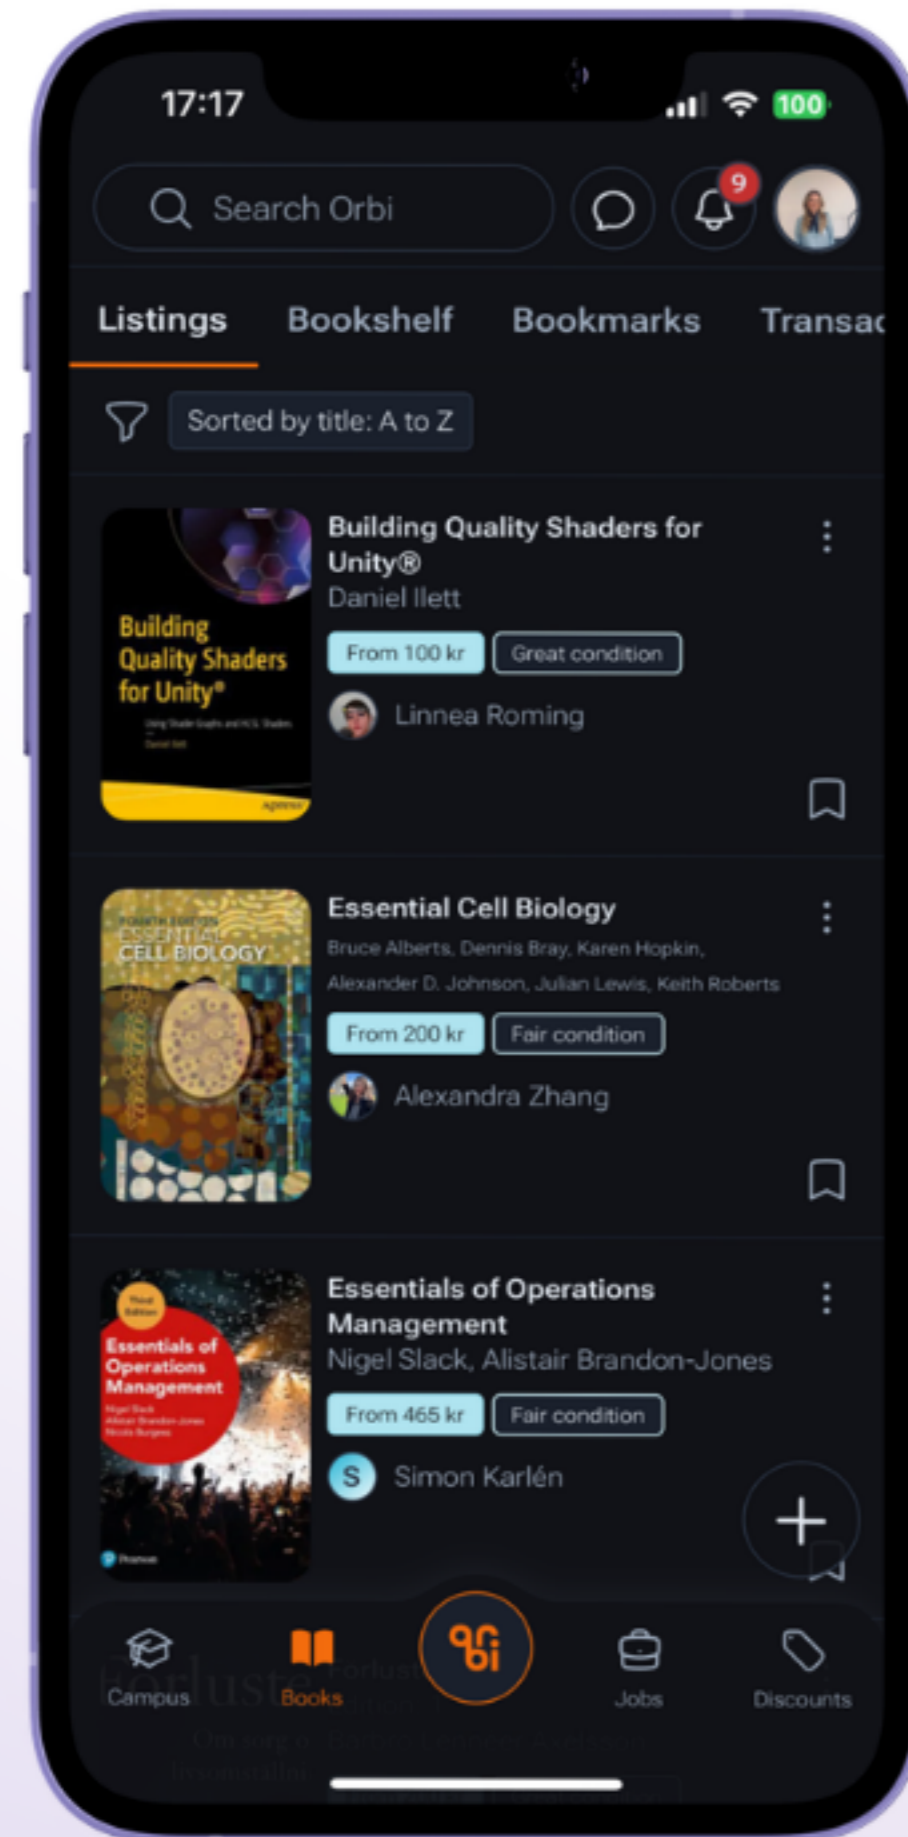

Student organizations can also:

- Share discounts from sponsors or local businesses
- Provide added value to their members and campus community

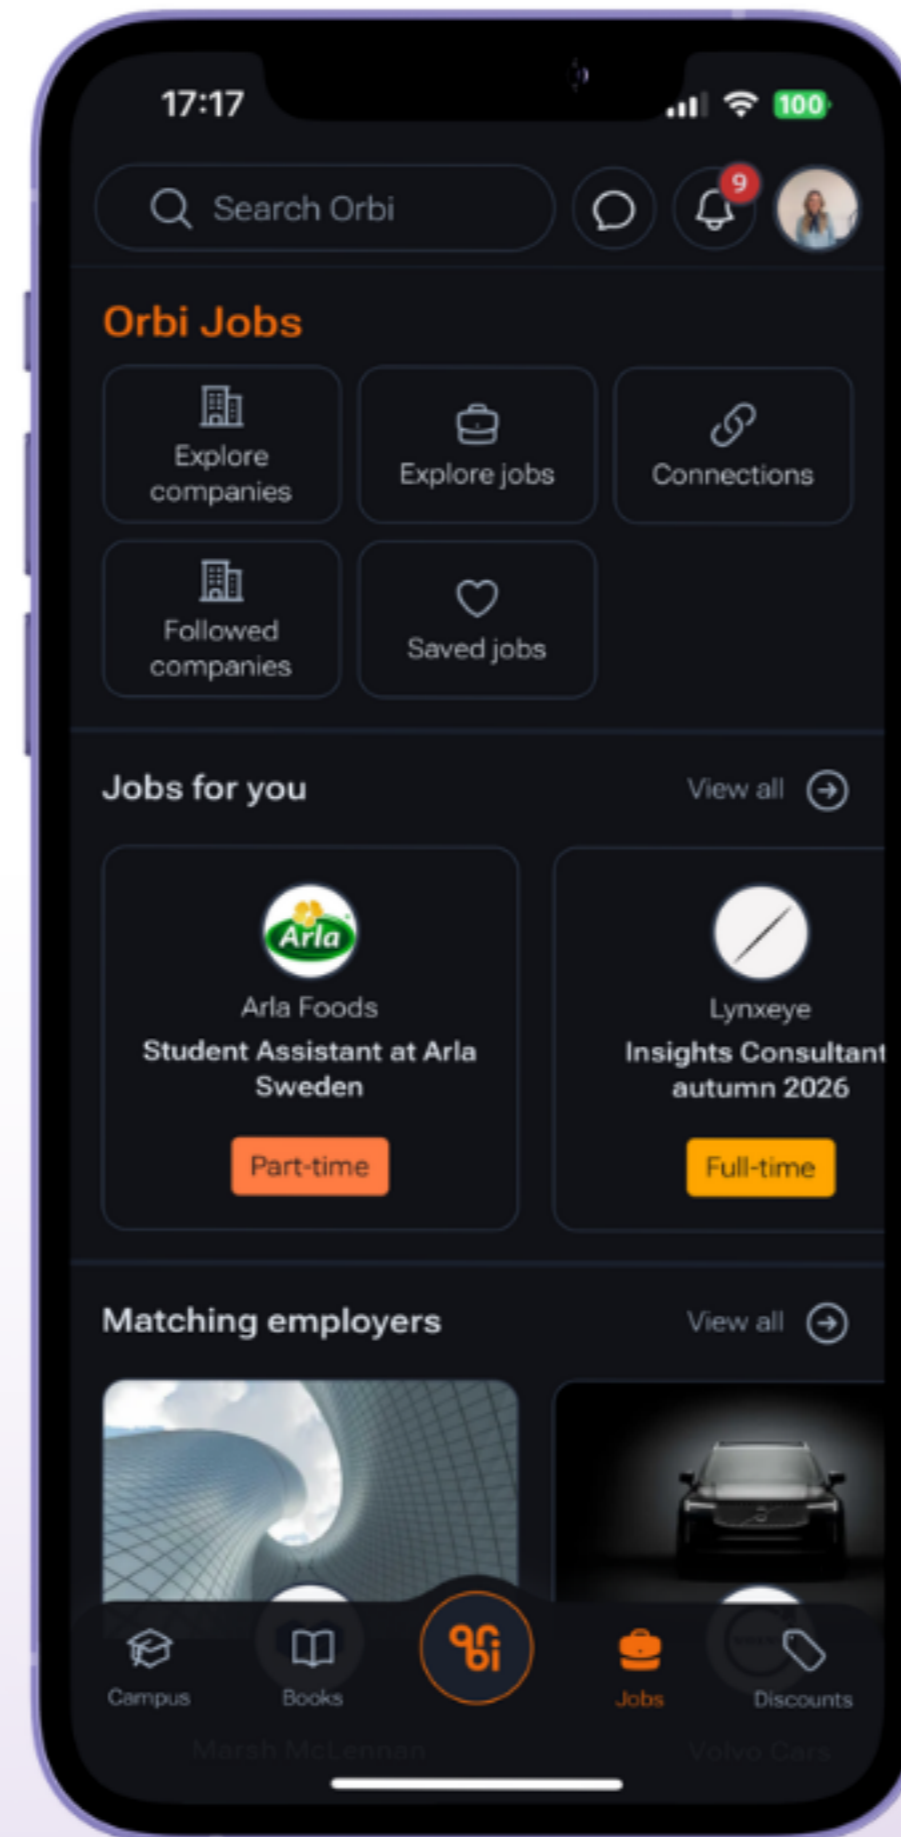

The app brings everything together, making it easy for students to discover, engage, and stay connected.
